KITCHEN HOOD DEEP CLEANING

SERVICE PROPOSAL

SUBMITTED TO	PROPOSAL DETAILS
M/s Azadea Group Qatar F&B Division – Facilities Management Kind Attention: Mr. Mohamed Siyath Mohamed Ahas E-Mail: mohamed.ahas@azadea.com	Ref. No.: MES/AMC/AZADEA/2026-499 Date: April 07 2026 Valid Until: 15 Days from Date of Issue Contract Duration: 12 Months (Renewable)

1. Executive Summary

Metri Engineering Services W.L.L. (MES Qatar) is pleased to submit this proposal for Kitchen Hood Deep Cleaning, Exhaust Duct Cleaning Services for Azadea Group Qatar's twelve (12) Food & Beverage outlets across premier retail destinations in the State of Qatar.

This service proposal covers comprehensive monthly deep cleaning of all kitchen exhaust hood systems, including hood canopies, exhaust ductwork, grease filters, exhaust fans, and complete oil/grease removal. The service ensures compliance with Qatar Civil Defence (QCD) and Municipality (Baladiya) fire safety and hygiene requirements.

Our professional cleaning teams are equipped with specialized degreasing chemicals, high-pressure cleaning equipment, and all necessary safety gear to deliver thorough cleaning services with minimal disruption to kitchen operations.

2. Outlets Covered Under This Contract

The following twelve (12) Azadea F&B outlets are covered under this Kitchen Hood Deep Cleaning Service Contract:

No.	Outlet Name	Location
1	**PAUL Café**	Villaggio Mall
2	**Butcher Shop & Grill**	Place Vendôme Mall
3	**PAUL Café**	Place Vendôme Mall
4	**Eataly**	Doha Festival City
5	**PAUL Café**	Doha Festival City
6	**PAUL Café**	Al Mirqab Mall
7	**PAUL Café**	Lagoona Mall
8	**PAUL Restaurant**	The Pearl Qatar
9	**EATALY**	Place Vendôme Mall
10	**Shanghai**	Place Vendôme Mall
11	**PAUL Café**	Landmark
12	**Butcher Shop & Grill**	Villaggio Mall
	TOTAL OUTLETS:	**12 Outlets**

3. Scope of Work

The Kitchen Hood Deep Cleaning Service includes the following comprehensive scope for each outlet:

3.1 Kitchen Hood Deep Cleaning

- Apply heavy-duty degreasing chemicals to hood interior and exterior surfaces
- Remove accumulated grease, oil, and carbon deposits
- Clean hood canopy, plenum area, and grease collection tray
- Scrub and polish stainless steel surfaces to restore shine
- Ensure complete oil and stain removal from all hood components

3.2 Exhaust Duct Deep Cleaning

- Inspect duct system for grease buildup and condition assessment
- Open and prepare access panels (where available)
- Manually scrape thick grease deposits from duct walls
- Apply industrial-grade chemical degreaser inside ducts
- Use high-pressure jet cleaning machine for thorough cleaning
- Clean horizontal and vertical duct sections completely
- Verify and ensure proper airflow after cleaning

3.3 Exhaust Fan Deep Cleaning

- Isolate power supply for safe working conditions
- Dismantle fan assembly (where accessible)
- Clean fan blades, motor housing, and casing thoroughly
- Remove heavy grease and oil deposits from all fan components
- Reassemble fan and test operation before handover

3.4 Oil & Grease Removal

- Remove all oil, grease, and sludge from hood system, duct interior, filters and trays
- Use specialized degreasing chemicals approved for food-service environments
- Collect and dispose waste safely

3.5 Filter Cleaning

- Remove all grease filters from hood assembly
- Soak filters in chemical degreasing solution
- High-pressure wash and degrease each filter thoroughly
- Dry filters completely and reinstall properly

3.6 Site Protection & Safety

- Cover all kitchen equipment and working area with protective sheets
- Use protective sheets to avoid contamination of food preparation surfaces

- Ensure strict safety procedures during all cleaning operations

3.7 Final Cleaning & Finishing

- Clean surrounding kitchen area affected by cleaning works
- Wipe all external surfaces and remove cleaning residues
- Remove all stains, oil marks, and water residues
- Leave the entire area neat, hygienic, and ready for operation

3.8 Testing & Handover

- Check exhaust airflow
- Ensure proper system operation
- Final inspection with client

3.9 Documentation

- Before & after photographic documentation of all work
- Service completion report

4. Service Frequency & Scheduling

All twelve (12) outlets shall receive one (1) complete Kitchen Hood Deep Cleaning service per month. The service schedule shall be coordinated with each outlet's management to minimize operational disruption.

Service Frequency	Details
Cleaning Frequency	Once per month per outlet (12 services/month total)
Preferred Timing	After operational hours or early morning before opening (as agreed with outlet)
Duration per Outlet	depending on hood size and grease accumulation
Advance Notice	Minimum 3 working days prior to scheduled service
Report Delivery	Within 5 working days of service completion

5. Inclusions

The following items are fully INCLUDED within the monthly service price:

- Skilled cleaning technicians and supervisor for all 12 outlet services
- All degreasing chemicals, cleaning agents, and consumables

6. Exclusions

The following items are EXCLUDED from this service contract:

- Repair or replacement of damaged hood components, ductwork, or fans
- Electrical repairs or motor replacement
- Installation of new access panels or duct modifications
- Fire suppression system inspection or maintenance (Ansul/kitchen suppression)
- Ecology unit cleaning or maintenance (covered under separate PMC)
- Any structural modifications or civil works
- Cleaning of equipment not listed in scope (e.g., cooking equipment, refrigeration, AC)
- Services outside normal scheduling without prior arrangement

7. Commercial Terms & Pricing

7.1 Pricing Summary
