

M/s HXsteel International Engineering W.L.L. Kind Attn: Mr. David Tetteh Procurement Manager E-Mail: project@hxsteel-engineering.com	QREF 09/10/2025-23 Subject: Quotation for Design, Supply & Installation of Ventilation Systems for Painting and Sand Blasting Areas
DATE : 09-10-2025	Email: mes@mes.qa

Dear Mr. David,

We are pleased to submit our quotation for the proposed ventilation systems for the painting and sand blasting areas as highlighted in the attached drawing, as per the scope of work discussed.

Scope of Work

1. Design, supply & installation of (4) Nos. Ventilation Systems for the painting and sand blasting areas.
2. The ventilation fans/equipment will be provided by the client. Any repair or servicing required for these fans is excluded from our scope.
3. Design, supply & installation of GI duct air distribution system to uniformly extract fumes from the sand blasting and painting areas, including diffusers for even air extraction.
4. Supply & installation of steel supports to mount the ventilation fans on the external wall.
5. Electrical termination works up to each fan, including final connection. (Note: Power cable and isolator to be provided by the client near each fan location.)

Commercial Offer

Total Contract Value	59,000.00 Q.R.
Payment Terms	50% Advance upon confirmation of order 50% Upon completion of works
Delivery & Execution	Within mutually agreed schedule after site readiness
Validity	15 days from the date of this quotation
Exclusions	Any civil works, fan repair/replacement, and power supply cabling/isolators

We trust that the above proposal meets your requirements and look forward to your valued order. Should you need any clarifications or modifications, please do not hesitate to contact us.
