DEFECTIVE PART DISCRIPTION

Equipment:-	DE-Humidifier	Location:-	Main Majilis (Outdoor Machine Area)
Part Name:-	PIR DUCT	Date:-	12/13/2025

DISCRIPTION OF ISSUE OBSERVED: - During Service of condensing units noticed that **FRESH AIR DUCT** appears to be broken or fractured near its midpoint, this damage creates a direct & exposed opening, significantly increasing the risk of rainwater infiltration directly into Main Majilis basement mechanical room.

PICTURE OF DEFECTIVE DUCT: -
